Heart of Darkness

Information for Instructors

The activities in this Unit are designed to help students increase their vocabulary by studying the meanings of words selected from Joseph Conrad's novel *Heart of Darkness*. All definitions provided in these activities are based on the contexts in which the vocabulary words appear, which may not always convey the words' conventional usage.

It is the goal of this Unit to familiarize students with vocabulary words that they will re-encounter in life and in other readings. The words are carefully selected to meet this goal. Many unfamiliar words not covered by the Unit are defined in a Glossary following the Activities section; the Glossary may also contain slang expressions and proper nouns.

Rather than matching *Heart of Darkness* chapter-for-chapter, we have divided the book into segments depending on the number of vocabulary words from each chapter. While all of the activities may be completed by students individually, we have had the best results when students worked on them in pairs or small groups. The following activities are provided for each segment.

While the words in this reproducible do represent those necessary for a better understanding of the text, our primary concern is that we select words not only pertinent to the literature, but also useful in other aspects of the students' lives. In addition, activities may vary slightly among the various chapters.

All page references come from the Prestwick House Literary Touchstone Press edition of *Heart of Darkness*, published 2005.
